PLANNING PERMIT

Permit No:
Planning Scheme:
Responsible Authority:

PA2012/3735/1
Melton Planning Scheme
Melton City Council

ADDRESS OF THE LAND:

LOT: 1 LP: 216252J, 57 Staughton Street MELTON SOUTH

THE PERMIT ALLOWS:

Development of the land with two single storey dwellings to be constructed at the rear of an existing dwelling on the land

THE FOLLOWING CONDITIONS APPLY TO THIS PERMIT:

1. Before the development starts, amended plans to the satisfaction of the Responsible Authority must be submitted to and approved by the Responsible Authority. When approved, the plans will be endorsed and will then form part of the permit. The plans must be drawn to scale with dimensions and three copies must be provided. The plans must be generally in accordance with the plans submitted with the application but modified to show:
 - (a) The on-site detention system.
2. Before the development starts, drainage design calculations and a drainage layout plan for the proposed development shall be submitted to and approved by the Responsible Authority.
3. The development as shown on the endorsed plans must not be altered without the written consent of the Responsible Authority.
4. The maximum storm water discharge rate from the proposed development is 10.7 litres per second. In the event that this discharge is exceeded, an on-site stormwater detention system will need to be installed in accordance with plans and specifications to be submitted to and approved by the Responsible Authority.

The following design parameters for the on-site detention system shall be used:

- Time of Concentration for the catchment: $T_c = 16.3$ min
- Travel time from the discharge point to the catchment outlet: $T_{so} = 10.1$ min
- Weighted coefficient of runoff at the initial subdivision: $C_w = 0.45$

Date Issued:

12 December 2012

Signature of the Responsible Authority:

Planning Permit PA2012/3735 Continued

All on-site stormwater shall be collected from the hard surface areas and must not be allowed to flow uncontrolled into adjoining properties. The on-site drainage system must prevent discharge from each driveway onto the footpath.

5. Stormwater must not be discharged from the site other than by means of an underground pipe drain discharged to a legal point of discharge to the satisfaction of the Responsible Authority.
6. No permanent structure is to be located above an easement unless approval is granted by the Responsible Authorities.
7. Before the on-site detention system is covered (by concrete and alike), the permit-holder must contact Council's Engineering Services Unit to organise an inspection of the property to verify the instalment, as per the endorsed drainage plans.
8. The following must be undertaken to the requirements and satisfaction of the Responsible Authority prior to the occupation of the dwelling hereby permitted:
 - (a) Alterations to the existing dwelling (and surrounds) as shown on the endorsed plan must be completed to the satisfaction of the Responsible Authority.
 - (b) The extension to the existing vehicle crossing must be constructed to a residential standard in accordance with Council's Standard Drawings. A cross-over permit shall be obtained from Council prior to construction.
 - (c) The landscaping works as described on the endorsed plan are completed and thereafter maintained.
 - (d) Drainage from all new dwellings is directed to the approved legal point of discharge.
 - (e) The development is connected to reticulated water supply, sewerage, drainage and underground electricity to the requirements of the relevant servicing authority.
 - (f) Any existing works affected by the development works shall be reinstated at no cost and to the satisfaction of the Responsible Authority.
9. Construction activities must be managed so that the amenity of the area is not detrimentally affected, through the:
 - (a) Transport of materials, goods or commodities to or from the land.
 - (b) Inappropriate storage of any works or construction materials.

Date Issued:

12 December 2012

Signature of the
Responsible Authority:

A handwritten signature in black ink, appearing to be the name of the Responsible Authority.

Planning Permit PA2012/3735 Continued

- (c) Hours of construction activity.
- (d) Emission of noise, artificial light, vibration, smell, fumes, smoke, vapour, steam, soot, ash, dust, waste and storm water runoff, waste products, grit or oil.
- (e) Presence of vermin.

10. This permit will expire if one of the following circumstances applies:

- The development is not commenced within two years of the date of this permit.
- The development is not completed within four years of the date of this permit.

The Responsible Authority may extend the periods referred to if a request is made, in writing, before or within three months of the relevant expiry date.

NOTES:

- The building must comply with the Building Regulations and the Building Code of Australia.
- All drains contained within the allotment, except in drainage easements, shall remain the property of the landowners and shall not be taken over by Council for future maintenance.
- All vehicle pathways contained within the allotment, other than stated in this permit, shall remain the property of the landowners and shall not be taken over by Council for future maintenance.
- Relevant permits, including but not limited to a vehicle-crossing permit, build over easement permit and/or road-opening permit will be required from Council prior to development.
- Drainage plans and design calculations must be marked to the attention of the Infrastructure Planning Coordinator, Council's Engineering Services Unit.

Date Issued:

12 December 2012

Signature of the
Responsible Authority:

A handwritten signature in black ink, appearing to be 'A. B.', written over a horizontal line.
