

Appendix 5- Referral Responses – dated 9 January 2018

Internal

Engineering	<p>No objection to the proposal including relocating and construction of the double vehicle crossing for 107 Caitlyn Drive. This must be carried out to the satisfaction of Council.</p> <p>No traffic or on street parking issues were raised as a concern.</p> <p>Also requested detailed drainage plans and design calculations to demonstrate how drainage, storm water quality and retardation on the subject land for the proposed development will be implemented.</p> <p>This will be requested as a condition of permit should Council resolve to approve the application.</p>
Waste Services Department	Have no objection to the proposal.
