### INDIAN CULTURE

India is home to over a billion people, accommodating incredible cultural diversity between languages, geographic regions, religious traditions and social stratifications.

#### Key concepts

The ethnicities of India can be broken down into main groups on the basis of their linguistic backgrounds, the two largest being Indo-Aryan and Dravidian. For example, many people belonging to Indo-Aryan ethnicities live in the northern half of the country. Indo-Aryan languages commonly spoken include Hindi, Gujarati, Bengali, Marathi, Urdu, Odia and Punjabi. Meanwhile, people belonging to Dravidian ethnicities generally live in the southern half of the country. Dravidian languages commonly spoken include Tamil, Kannada, Telugu and Malayalam.

India has a highly stratified traditional social structure, often referred to as the 'caste' system. The Caste system is unique to the Indian subcontinent and represents overlapping systems.

The large-scale caste system is known as the '*varna*' system. This classifies society into four broad categories; *brahmin* (priestly caste), *kshatriya* (nobility caste), *vaishya* (merchant caste) and *shudra* (artisan or labourer caste).

The small-scale caste system, known as the '*jati*' system, comprises over 2,000 *jati* categories that determine one's occupation or vocation based on their family of birth. The *jati* system is particularly noticeable in the daily social organisation of Indian culture and explains why it is common for people to follow the professions of their parents and grandparents.

India is notable for its religious diversity, with Hinduism, Buddhism, Sikhism, Islam, Christianity, and Jainism among

the nation's major religions. Many Indian festivals are religious in origin. Festivals are at the heart of people's lives in India. There are numerous and varied festivals that are held throughout the year including Diwali, Ganesh Chaturthi, Thai Pongal, Holi, Durga Puja, Eid ul-Fitr, Bakr-Id, Christmas, and Vaisakhi.

### ETIQUETTE

It is important to be aware of the diversity of traditions and practices regarding etiquette in India. Given the different social norms among regions, linguistic groups and religions, each community has their own understanding of what constitutes respectful or normal behaviour.

- Some Indians may have dietary restrictions based on their religious faith. For example, practising Muslim Indians do not consume pork. For many Hindus, cows have sacred religious connotations, and the consumption of beef will be avoided.
- Over 93% of Indians in Australia are fluent in English, and it is common for them to have an extensive and impressive vocabulary. If you communicate in a way that doesn't acknowledge this, your Indian counterpart will likely interpret this as patronising.
- Try to dress conservatively and speak respectfully out of respect for your Indian counterpart.
- Enjoy a playful and light-hearted sense of humour. Indians tend to enjoy friendly banter and light teasing.
