

**Families
and Children**

Preschool Field Officer Program

The Preschool Field Officer Program (PSFO) at Melton City Council works closely with Early Childhood Educators in funded kindergarten services to support the inclusion and positive participation of children who are having challenges at kindergarten.

Support for educators may include:

- Providing information, resources, and professional development opportunities.
- Coaching and assistance in building skills and strategies to positively engage families and children.
- Identifying referral pathways and linking families to support services.

Educators or other professionals working with a child, together with parents/guardians, can make a request for support to the PSFO program.
